

API3 Proposal #3

▼ Project	API3DAO
☰ Type	Proposal

▼ Introduction & Background

As of March 2021, Curve Labs have been working on the development of API3DAO monolith. Since taking over the project, Curve Labs worked on the **DAO contracts** focusing on the custom voting app, the **Pool contracts**, the **DAO interface**, and further development of API3DAO.

This proposal consists of mainnet deployment and maintenance of API3DAO.

▼ Proposal

The Curve Labs proposal for this cycle includes (a) **deployment authoritative DAO to mainnet** (b) **maintenance of API3DAO following the deployment** (c) **providing supporting materials for the launch.**

▼ Deployment of Authoritative DAO

Curve Labs will carry out the revision of the final audit to ensure that the changes requested by the auditors are implemented in a timely manner and approved by stakeholders prior to launch.

Once the final revisions and approvals are done, Curve Labs will carry out the mainnet deployment of API3DAO which includes preparation of the deployment script and submitting solidity code to Etherscan to verify the contracts. Curve Labs will also ensure the proper documentation, guidelines, and tutorials are delivered to support the launch.

The proposed team structure is designed to carry out the remaining tasks in a frictionless way.

▼ Maintenance

Curve Labs will provide technical support following the launch. Any issues or further iterations will be taken care of by the team.

▼ Supporting Materials

Curve Labs will ensure the proper documentation, guidelines, and tutorials are delivered to support the launch.

▼ **Budget and Team**

Monthly Cost

<u>Aa</u> Name	# %	☰ Tasks	# Monthly Cost
<u>Renç</u>	50%	Project Management	\$4,375.00
<u>Olivier</u>	25%	Code Review and Advisory	\$2,188.00
<u>Arseny</u>	50%	Back-End Development	\$4,375.00
<u>Konstantin</u>	50%	Back-End Development	\$3,200.00
<u>Ezra</u>	50%	Clean and optimize documentation	\$4,375.00
<u>Bartu</u>	75%	QA & Content Creation	\$1,900.00
<u>Raz</u>	25%	Content Creation: covers previous and current month	\$5,500.00
<u>Curve Labs</u>		Curve Labs is a legally incorporated German limited liability corporation (GmbH) and as such incurs legal, taxation, operations, and mgmt costs.	\$6,478.00
<u>Total</u>			\$32,391.00
