

API3 China Community Team Compensation Proposal

Team: API3 China Community Team
Operations cycle: #3
Period: 1 May 2021–30 July 2021 (3 months)
Amount: 30,000 USDC
ETH add: **0x9ac9c636404C8d46D9eb966d7179983Ba5a3941A**

Introduction

We are DAO believers, and we are also attracted by the concept and design of API3. So, we are optimistic about the future development of API3 and believe that API3 will become a leader in the Oracle and API field in the near future.

As we all know, China is the largest market in the blockchain space (both as a product user and as Holder/Token Trader). Therefore, China is also a market that API3 needs to focus on.

Based on this vision, we hope to build an API3 China market team to help API3 expand the market in China.

Briefly, our efforts include:

- Help API3 build its brand influence in China
 - Help API3 get more users in China
 - Help API3 get more token holders in China
-

Work items

- API3 Chinese community operation and growth
 - Media PR and content output
 - WeChat public account, BiHu Column, ChainNews Column, Odaily Column, Mars Finance Column, Jinse Finance Column, 8bit Column, Weibo, etc.
 - Business Development
 - Online/offline events organization
-

Timeline of execution

Media:

- Weekly - 1 article for API3 (translation)
- Timely release project progress to all major blockchain media
- 3 months - 1 article for API3 (original)

Community Operations:

- Monthly - 1 online meetup in the community to discuss API3. option:
 - Public class
 - AMA
 - Panel
 - online event co-organized with other crypto communities
- 3 months - more than 1 live broadcast (Bihu), invite API3 team members to participate
- Daily (including Saturday and Sunday) - daily operation of the community, support. Includes organize learning and discussion of API3

Marketing & BD:

- if there is a blockchain/oracle offline/online summit, attend a round table or keynote speech at least once
- API3 ads (including Bihu) in blockchain media and community
- contact potential customers in China and make an effort to sign up

**Other work that follow the overall plan of API3.*
